

FITBUDDY

Development Documentation

FitBuddy

- `generate_workout_gemini()` creates a structured 7-day plan using Gemini 1.5 Pro.
- `generate_nutrition_tip_with_flash()` creates a concise nutrition/recovery tip using Gemini Flash.
- `update_workout_plan()` revises the original plan using user feedback and Gemini 1.5 Pro.
- `database.py` stores users and plans in SQLite using SQLAlchemy.
